```
vboxuser@ubuntu:~$ nano exp4c.sh
vboxuser@ubuntu:~$ cat exp4c.sh
#!/bin/bash

read -p "Enter word to delete: " word

for file in "$@"
do
      sed -i "/$word/d" "$file"
done

echo "Lines containing '$word' have been deleted."

vboxuser@ubuntu:~$ chmod +x exp4c.sh
```

```
vboxuser@ubuntu:~$ cat file1.txt
1    Hello world
2    This is a test
3    Hello again
4    Another line
vboxuser@ubuntu:~$ cat file2.txt
1    Hello user
2    Linux is great
3    Hello again
4    End of file
vboxuser@ubuntu:~$ ./exp4c.sh file1.txt file2.txt
Enter word to delete: Hello
Lines containing 'Hello' have been deleted.
```

```
vboxuser@ubuntu:~$ cat file1.txt
This is a test
Another line

vboxuser@ubuntu:~$ cat file2.txt
Linux is great
End of file
```
